

Valvin V100L is the new leader in water conservation with the first and only fill valve that monitors various leaks in any tank style toilet. This new intelligent fill valve can detect and turn off water in tank toilet when there is a stuck open flapper leak, a fill valve leak or even a silent flapper leak, while sending a notification to the controller letting you know where the leak is located. Valvin V100L is the new edge in water conservation for tank style toilets.

 ⑦ Adjustable Lever

Technical Specifications:

- Material: ABS, PP, SS
- Cable material: Silicone
- Rubber material: EPDM
- Electronic components: Silicone sealed
- Electronic components are Rohs compliant
- Fill valve Inlet thread: G15/16"
- Fill valve cycles: 75,000+
- Adjustable height: 8-11"
- Water pressure: 0.015-1.6Mpa
- Water filling rate: 4.7L /minute
- Battery: 9V (Not included)
- Battery life: 2 years
- Water proof labels
- UPC & cUPC Cert.
- Patented in US and China

Packaging Details:

- N.W./Master Carton (12 units): 10.85 lbs.
- G.W./Master Carton (12 units): 15.50 lbs.
- Master Carton Size: 18 7/8 x 14 1/8 x 11 3/4 in.
- Max Pallet Qty: 30 Cartons (360 units)
