

Gizmode®

INNOVATIONS

Water is the #1 cause of property damage. Undetected water loss will destroy home and property. Gizmode Water Alarms are the loudest and most effective on the market. Don't let another day go by without the peace-of-mind that your home or office are protected.

Get Your Gizmode Water Alarms Now!

Gizmode Water Alarms make direct contact with floor for immediate detection of moisture and water.

Your home is 85% more likely to be damaged by water than by fire. **Alarmed?**

Water: The silent destroyer

Carpeting. *Wood Floors.*
Furniture. *Drywall/Plaster.*
Electronics.

It only takes a little water to cause significant and costly property damage, while unabated water loss can completely destroy a home and possessions. Water corrodes and rots, providing a fertile breeding ground for illness-causing bacteria and mold, yet your home is surrounded by water every minute of every day. Hundreds of feet of pipes carry water to almost every room inside the home and forces of nature pound the home's exterior, while ground water can breach a home's foundation or flood a basement. Detecting water before it causes damage is essential to keeping the home protected and healthy.

The Original Water Alarm SKU: WA01

Product Description

The Original Water Alarm is the early warning for leaky pipes, water heaters, dishwashers, washing machines and more. Designed and introduced in 1995, it was and still is the most effective Water leak Detector available. It's unique design and innovative moisture detection capabilities are unparalleled. Use the Water Alarm to detect even the smallest amounts of moisture before mold, mildew and serious water damage can occur. It can also be placed near bath tubs, toilets, beneath sinks and can be used as a basement water alarm for early notification of flooding from leaky pipes or ground water incursion. Water damage often starts with a small leak and grows to a continuous and disastrous water flow. Use the Original Water Alarm to detect leaks immediately before they have a chance to silently rage out of control.

- **Incredibly loud alarm (110+ dB) can be heard in cabinets and basements for up to 72 hours**
- Effective - it can detect the slightest amount of moisture - no standing water required
- Easy to Use - set anywhere unexpected moisture/water could occur
- Very Affordable - get enough units to protect your entire home or office
- Long Battery Life - new batteries recommended every 2+ years - chirps when batteries are low
- Uses a standard 9-Volt battery
- Remote sump/hot tub and sensor pad add-on adapters available
- Can use both the SA01 and SP01 attachment sensors
- Completely electronic, no moving parts to fail or wear out
- 2.75" H x 3" Dia.
- 1 year manufacturer's warranty

The Water Alarm SKU: WA02

Product Description

The Water Alarm is the early warning for leaky pipes, water heaters, air conditioners, dishwashers washing machines and more. Introduced as the lower profile alternative to the Original Water Alarm, it includes two expansion ports to easily connect the SP01 Sensor Pad for multiple water leak detection areas. Like the Original, you can use the Water Alarm-02 to detect even the smallest amounts of moisture before mold, mildew and serious water damage can occur. It can also be placed near bath tubs, toilets, beneath sinks and it can be used as a basement water alarm for early notification of flooding from leaky pipes or ground water incursion. Water damage often starts with a small leak and grows to a continuous and disastrous water flow. Use the Water Alarm-02 to detect leaks before they have a chance to silently rage out of control.

- **Incredibly loud alarm (110+ dB) can be heard in cabinets and basements for up to 72 hours**
- Effective - it can detect the slightest amount of moisture - no standing water required
- Easy to Use - set anywhere unexpected moisture/water could occur
- Very Affordable - get enough units to protect your entire home or office
- Long Battery Life - new batteries recommended every 2+ years - chirps when batteries are low
- Uses a standard 9-Volt battery
- Remote sensor pad add-on adapters available
- Can use the SP01 attachment sensors on both expansion ports simultaneously
- Completely electronic, no moving parts to fail or wear out
- 1.75" H x 3.25" W x 3.25" L
- 1 year manufacturer's warranty

The Water Screamer SKU: WA03

Product Description

The Water Screamer is the LOUDEST early warning device at over 130db. Nothing else comes close. Introduced by customer demand, it includes one expansion port to easily connect the SP01 Sensor Pad for multiple water leak sensing areas. Like the Original, you can use the Water Screamer to detect even the smallest amounts of moisture. It can be placed near bath tubs, toilets, beneath sinks, or it can be used as a basement water alarm for early notification of flooding or leaky pipes. It is highly recommended for the mechanical room, attic, and other remote areas where the loudest alarm is critical to detecting a water event. Those individuals that may be hard of hearing should consider the Water Screamer exclusively. There is no place in your home that the Water Screamer cannot be heard. Detect those leaks EARLY and ensure that your valuables are safe.

- **Extra-loud SIREN (130+ dB) can be heard anywhere in the home or property for up to 72 hours**
- High-end commercial grade design for unprecedented reliability and protection
- Effective - it can detect the slightest amount of moisture - no standing water required
- Easy to Use - set anywhere problem moisture/water could occur
- Recommended for remote locations and basement floods and those that may be hard of hearing
- Long Battery Life - new batteries recommended every 2+ years - chirps when batteries are low
- Uses up to 3 standard 9-Volt batteries (1 battery = 24 hrs, 2 batteries = 48 hrs, 3 batteries = 72 hrs of continuous 130db alarm)
- Remote sump/hot tub and sensor pad add-on adapters available
- Can use both the SA01 and SP01 attachment sensors
- Completely electronic, no moving parts to fail or wear out
- 2.5" H x 4.5" Dia
- 1 year manufacturer's warranty

INNOVATIONS

Sensor Pad Attachment SKU: SP01

Product Description

The Sensor Pad Attachment has many uses and extends the reach and additional detection points to all Gizmode Innovations Water Alarm products. It acts as an A/C condensation pan overflow alert when used with the adjustable stand. The SP01 is perfect for tight spaces and low profile areas, i.e. under the refrigerator or under the dishwasher panel. The SP01 can be used with or without the included stands. In addition, the attachment unit has a secondary port, which allows multiple SP01 sensor pads to be "daisy-chained" to cover multiple water detection areas from a single alarm.

- Only for use with Gizmode Water Alarms, WA01, WA02, and WA03
- Perfectly suited for A/C condensation pans with adjustable stands (set to any height above pan)
- Can be used without the included stands for ultra-low profile areas
- Daisy-chain multiple sensors to a single Water Alarm for multiple detection areas
- Package includes 9 feet of extension wire, 6 inch pigtail (for connection to the WA01 Water Alarm), Sensor Pad, and an adjustable height stand (plus 1 spare stand)
- Easily attached to the bottom of any Gizmode Water Alarm by using the included connectors
- Completely electronic, no moving parts to fail or wear out
- Pad = 3/8" H x 1" W x 2" L
- 1 year manufacturer's warranty

Sump Pump / Bathtub Attachment SKU: SA01

Product Description

This attachment acts as a sump pump overflow warning, bathtub full alert, and hot tub full alert. In addition, it can be used in sinks, wells, aquariums, hot tubs, swimming pools, or any container that could overflow and cause water flooding. You can easily attach it to the bottom of the WA01, WA02, and WA03 by gently sliding the open end of each connector to the sensor legs.

- Only for use with Gizmode Water Alarms, WA01, WA02, and WA03
- Perfectly suited for any container that may overflow and cause water damage
- Package includes 6 feet of extension wire and fill alert probe/sensor
- Easy to Use - use anywhere detection of rising water level is desired
- Completely electronic, no moving parts to fail or wear out
- 3" H x 5/8" Dia
- 1 year manufacturer's warranty
